

## ATTENTION - Reflector requirements for bikes in Scandinavia

A bicycle with two wheels must be equipped with at least:

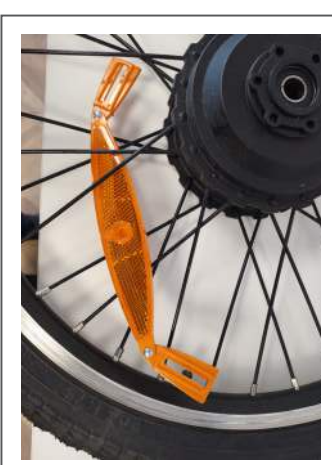

1. One white reflector visible from the front. 2. One red reflector visible from the rear. 3. At least two yellow reflectors which move when the bicycle is moving (already integrated in the pedals on this model) and which are visible from behind. 4. At least one reflector in each wheel visible from the sides (for Denmark these reflectors needs to be yellow by law).
